TALENTNAVIGATOR 

It can be hard to find a **high performing** sales person.

We're here to help identify the right role for your company, and screen and hire talent that fits your needs. Then we assist with the onboarding process to ensure a high level of motivation and retention.

Our process results in reducing costly turnover and increasing sales.

DEFINE, SCREEN & Hire

We assist in creating a job description with key metrics, then take an active role in screening the right candidate for your business growth and company culture. We conduct interviews with you or on your behalf.

SALES HIRING Training

In today's tight job market, you can't risk letting a sales rock star get away. We partner with Sales Management on best interview and hiring practices that are specific to high level producers.

ONBOARDING & Retention

The real work begins when you transition a new member to the team. We help that process and work with you to create and foster a culture where everyone can thrive; built on teamwork, accountability and effective sales leadership.
